

[shenzhen cnc machining custom spare parts](#), engine parts , custom drawings needed in igs , stp files

I .Specifications for [cnc machining custom spare parts](#)

- Material stainless steel , aluminum
- finish brushed polished powder coating anodising
- MOQ 1 pc
- sample available
- sea port SHENZHEN

II. Different cnc machining custom spare parts

KEBIL 科比奥®

KEBIL 科比奥®

OEM fabrication services we offer as below :

- precision casting
- die casting
- metal stamping
- welding
- [cnc machining](#)
- polishing
- plastic extrusion
- plastic injection
- Forging
- powder metallurgy

Materials

- stainless steel 304 , 316 , 316L , duplex 2205
- aluminum 6061, 6063, 7022,5052, AD12 (for die casting)
- zinc alloy
- plastic
- brass , copper
- steel 17-4 (very strong steel)

Surface treatment

- stainless steel polishing , powder coating , anodising , nickel plating , chrome plating , electro polishing

Applications fields :

- automobile parts
- Industrial equipment accessories
- Furniture fittings
- machinery parts
- construction building hardwares (standard items)

Testing equipments :

steel measure tap, straight steel ruler , angle square, vernier caliper , ID/OD micrometer , vernier universal bevel protractor , vernier height /depth gage , gap gage , thread gage , R angle gage , hardness gage...

Maximum size for cnc parts : 100mm

Maximum size for die casting parts : 300mm

Tolerance for precision casting (lost wax casting) : ± 0.2

Tolerance for cnc machining : ± 0.05

Tolerance for die casting : ± 0.1
