

Q: How to install the lock? A: The lock is easy to install. You just need to follow the steps below.

Q: What is the difference between 304 and 316 stainless steel? A: 316 stainless steel is more corrosion-resistant than 304. It is suitable for outdoor or coastal environments. 304 stainless steel is suitable for indoor use.

Q: How to choose the lock?

1. Choose 316 stainless steel for outdoor use.
2. Choose the lock type according to your needs.
3. Choose the lock size according to your door.
4. Choose the lock brand according to your budget.
5. Choose the lock color according to your door.
6. Choose the lock handle according to your preference.

Q: How to clean the lock? A: You can clean the lock with a soft cloth and mild detergent. Do not use abrasive cleaners.
