When all spigots are installed, slip domical cover the top of the spigot to hide fixings. It will be necessary to turn the adjustment screws on the spigot face all the way in to allow cover to pass over

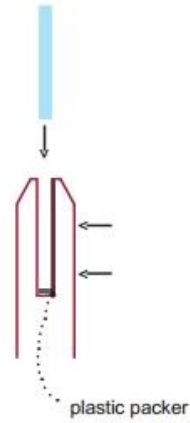

Note: Same installation method applies to round base plate spigot

The glass is then installed to the spigots. Place plastic packers between glass & spigot, at no stage should glass touch the metal

How adjustability works:

1. Place glass in spigot
2. Fix/ tension glass both sides with allen key

4. Rahmenlose Glasgeländer mit Duplex 2205 gebürstet Rundgrundplatte Glaszapfen
