Descripción:

Incluso sin un riel superior o una tapa de vidrio, puede mantener la alineación y agregar resistencia a su sistema de barandillas de vidrio con los estabilizadores de paneles de vidrio.

Montado a lo largo del área media superior de los paneles de vidrio, cada elegante estabilizador mantiene los paneles de vidrio adyacentes en su lugar.

Hechos de acero inoxidable 316 prácticamente resistente a la corrosión, los estabilizadores de paneles de vidrio son perfectos para proyectos interiores y exteriores.

De 45 a 180 grados, hay opciones para cada ángulo en la configuración de su barandilla. Seleccione los estilos que necesita para darle el toque final perfecto a su moderno proyecto de barandillas de vidrio.
