WHY CHOOSE US

15 YEARS EXPERIENCE

We have been manufacturing railing hardware since 2004.

ONE STOP SERVICE

We provide integrated railing solutions.
We manufacture.
We deliver.

PROFESSIONAL R&D TEAM

We have engineering experts for developing new products.

TOP QUALITY & GOOD PRICE

We are strict on quality control as well as cost evaluation.

ABOUT US

Shenzhen Launch Co., Ltd was established in 2004, located at Nanshan District, Shenzhen, and one hour by car from Hongkong International Airport. Our main products are high-grade building materials including stainless steel balustrade post, staircase handrail, balcony guardrail, swimming pool fence and other high-grade building materials. All the products are designed strictly according to the high-end market requirements. We have our own factory in Tangxia Town, Dongguan, with more than 50 sets of various precision equipments, such as CNC lathe, milling machine, punching machine, pipe cutter, argon welder, drilling machine, polisher, etc. which can provide customers with complete product processing services.

Balkon Balustrade 12mm [Glazen hek 2205 Spigots](#)

Glazen hek 2205 spon details

- Materiaal: roestvrij staal duplex 2205
- Afwerking: spiegel / satijn / zwart / goudkleur
- Voor glasdikte 10-13,52 mm
- Montage: vloermontage / opbouwmontage / kernboormontage
- Fabrikant methode: gieten (hoge kwaliteit)
- MOQ: 1 stuk
- Maak kennis met AS1926.1-20012 / AS2820 veiligheidsbarrières in Australië voor complicaties bij de zwembadpoort
- Toepassing: zwembadomheining, balkon, terras, trappen, veranda ... hekwerk van glas

4 modellen glas hek 2205 zwikje beschikbaar

Glas hek 2205 zwijkje installatie

fixing method: base plate spigots

Mark out the centre line of proposed glass fence with a chalk line. Determine clamp location based on a sheet size (recommendation on pages 1 & 2). Use base plate as a template to mark out the hole positions and drill holes to suit.

Note: Do not exceed 100mm gaps between glass panels. Optimum gap is 40mm to 60mm

Now the base plated spigots can be fitted to the floor and plumbed via shims (not supplied) under the base plates. Be sure to tighten firmly as the smallest of movement at the base plate will result in noticeable movement at the bottom of the glass fence.

Tip: By setting the two outer spigots of your total span, a string line can be run in the 'throat' of the spigots, giving correct height for all spigots in between

Note: Do not exceed 100mm gap from the fixing surface to the bottom of the glass

When all spigots are installed, slip domical cover the top of the spigot to hide fixings. It will be necessary to turn the adjustment screws on the spigot face all the way in to allow cover to pass over

Note: Same installation method applies to round base plate spigot

The glass is then installed to the spigots. Place plastic packers between glass & spigot, at no stage should glass touch the metal

How adjustability works:

1. Place glass in spigot
2. Fix/ tension glass both sides with allen key
