

Roestvrijstalen duplex 2205 Matt Zwart Verstelbare Glazen Spigot voor glazen zwembad hek railing

Productbeschrijving - Glass Spigot

Product mamij	Frameeloze glazen railing roestvrijstalen glazen spigot
Materiaal	Duplex 2205 / roestvrij staal 316
Standaard	Australische standaard Als 1926.1-2012 : Veiligheidsbarrières voor zwembaden
Installatie	4 x 11 mm Counter SunK-gaten voor houtschroef of verzonken boutinstallatie
Finish	Spiegel gepolijst / satijn geborsteld / zwart / goud
Voor Glass thickness	8-13.52mm (geen gat vereist in glas)

Hoogte	168mm
Basisdeksel	100x100mm voor vierkant, diameter 100 mm voor rond
Montage	Oppervlakte / vloer montage
Fabricage-methode	Gieten (hoge kwaliteit)
Details over de verpakking	1) één stuk in één bubbelzak, dan in een witte doos 2) 12 stuks in 365x330x230mm kartonnen doos 3) Verpakking als klantenvereisten
Sollicitatie	Pool hek / balkon / dek / trapleuning
Fabrieksinspectie	Beschikbaar
Suitgebreid	Beschikbaar
Moq	10 stuks. Zou kunnen bestellen volgens je baan vereiste.
OEM & ODM Onderhoud	Beschikbaar

InstallatieRichtlijn - Glass Spigot

fixing method: base plate spigots

Mark out the centre line of proposed glass fence with a chalk line. Determine clamp location based on a sheet size (recommendation on pages 1 & 2). Use base plate as a template to mark out the hole positions and drill holes to suit.

Note: Do not exceed 100mm gaps between glass panels. Optimum gap is 40mm to 60mm

Now the base plated spigots can be fitted to the floor and plumbed via shims (not supplied) under the base plates. Be sure to tighten firmly as the smallest of movement at the base plate will result in noticeable movement at the bottom of the glass fence.

Tip: By setting the two outer spigots of your total span, a string line can be run in the 'throat' of the spigots, giving correct height for all spigots in between

Note: Do not exceed 100mm gap from the fixing surface to the bottom of the glass

When all spigots are installed, slip domical cover the top of the spigot to hide fixings. It will be necessary to turn the adjustment screws on the spigot face all the way in to allow cover to pass over

Note: Same installation method applies to round base plate spigot

The glass is then installed to the spigots. Place plastic packers between glass & spigot, at no stage should glass touch the metal

How adjustability works:

1. Place glass in spigot
2. Fix/ tension glass both sides with allen key
