

1.8m height powder coated aluminum post semi frameless glass pool fencing

Aluminium pool fence panels are much more cost effective, resulting in a cheaper overall cost to the fence, but they do obscure the view of your pool which for many people is one of the joys of owning a pool...having it as a visual feature of your backyard. Aluminium fence panels are typically made with tubular upright bars joined by upper and lower rails. Come in standard heights of 1.2m, 1.5m, 1.8m.

1. Square and Round shape aluminum post
