

Balcony Fence Floor Glass Mounting

Brackets duplex 2205 material for outdoor use for 1/2" thick glass railings.

1. Features of Balcony Fence Floor Glass Mounting Brackets-

Material	Duplex 2205
Finish	satin brushed
Height	168mm
Glass thickness	10-13.52mm thickness glass
Height	168mm ; or can be customized
Plastic gasket	Made of nylon material , it can last for lifelong time
Concrete bolt to suit	M8*100
Unit Weight per pc	1.42kg
In stock	Yes
MOQ	2 pcs

2. Dimensions of SBM Glass Mounting Brackets-

深圳市朗馳商貿有限公司 SHENZHEN LAUNCH CO., LTD.		Surface treatment		Proportion
Design	Jacky	Brawing NO: SBM	Material	1:2
Check		Name:	No note of entity size tolerance	
Craft			Linear tolerance	X ±0.1
Audit			XXX ±0.1	
Approve		Revision	Angle tolerance	X ±1°
		V001	XXX ±0.5°	

3. Loading test &Material test for SBM Glass Mounting Brackets-

LOADING TEST FOR SBM

Introduction

MTS Metallurgical Testing Services was engaged to witness the installation of a sample pool fence spigot and to subsequently conduct load tests on the spigot to the requirements of Australian Standard AS1926.1 - 2012.

Standard/Specification AS 1926.1 - 2012, Section 3.2 and Appendix B

Results Summary

(For details of individual tests, refer to the tables on the following pages.)

ID	Item/Heat No.	Dimensions/Type/Details	Finish	Overall Assessment
14117/01	SSRM316	60mm Square, Base Plate 316 Stainless steel	316I	COMPLIES

Remarks

After completion of the testing, the spigot was found to be in sound condition with no breakage, tearing or signs of fracture and no looseness of the fixings.

4. Installation Instructions for SBM Glass Mounting Brackets

fixing method: base plate spigots

Mark out the centre line of proposed glass fence with a chalk line. Determine clamp location based on a sheet size (recommendation on pages 1 & 2). Use base plate as a template to mark out the hole positions and drill holes to suit.

Note: Do not exceed 100mm gaps between glass panels. Optimum gap is 40mm to 60mm

Now the base plated spigots can be fitted to the floor and plumbed via shims (not supplied) under the base plates. Be sure to tighten firmly as the smallest of movement at the base plate will result in noticeable movement at the bottom of the glass fence.

Tip: By setting the two outer spigots of your total span, a string line can be run in the 'throat' of the span, giving correct height for all spigots in between

Note: Do not exceed 100mm gap from the fixing surface to the bottom of the glass

When all spigots are installed, slip domical cover the top of the spigot to hide fixings. It will be necessary to turn the adjustment screws on the spigot face all the way in to allow cover to pass over

Note: Same installation method applies to round base plate spigot

The glass is then installed to the spigots. Place plastic packers between glass & spigot, at no stage should glass touch the metal

How adjustability works:

1. Place glass in spigot
2. Fix/ tension glass both sides with allen key

5. Packing details for SBM Glass Mounting Brackets-

1 pc into a white box ; 12 pcs into a carton-

6. Mass Production Process for SBM Glass Mounting Brackets -

7. More models of glass spigot for your selection-
