

Model P705 wall mount stainless steel handrail bracket comes with only 2 sunk holes on base for screws fixed on the wall .

This sunk holes with screws installed, you still can see it is flat on surface. So it requires no over plate to cover the screws.

The supporting rod is curved not "L" shape, so it looks more special and modern.

The round tubing or round pipe handrail that the bracket will go on can be 38mm or 42.4mm or 50.8mm diameter.
