The glass railing is a safety barrier that is becoming increasingly popular.

It is above all a protective handrail which is protecting its users from possible falls.

A **point fixing** glass railing has various applications:

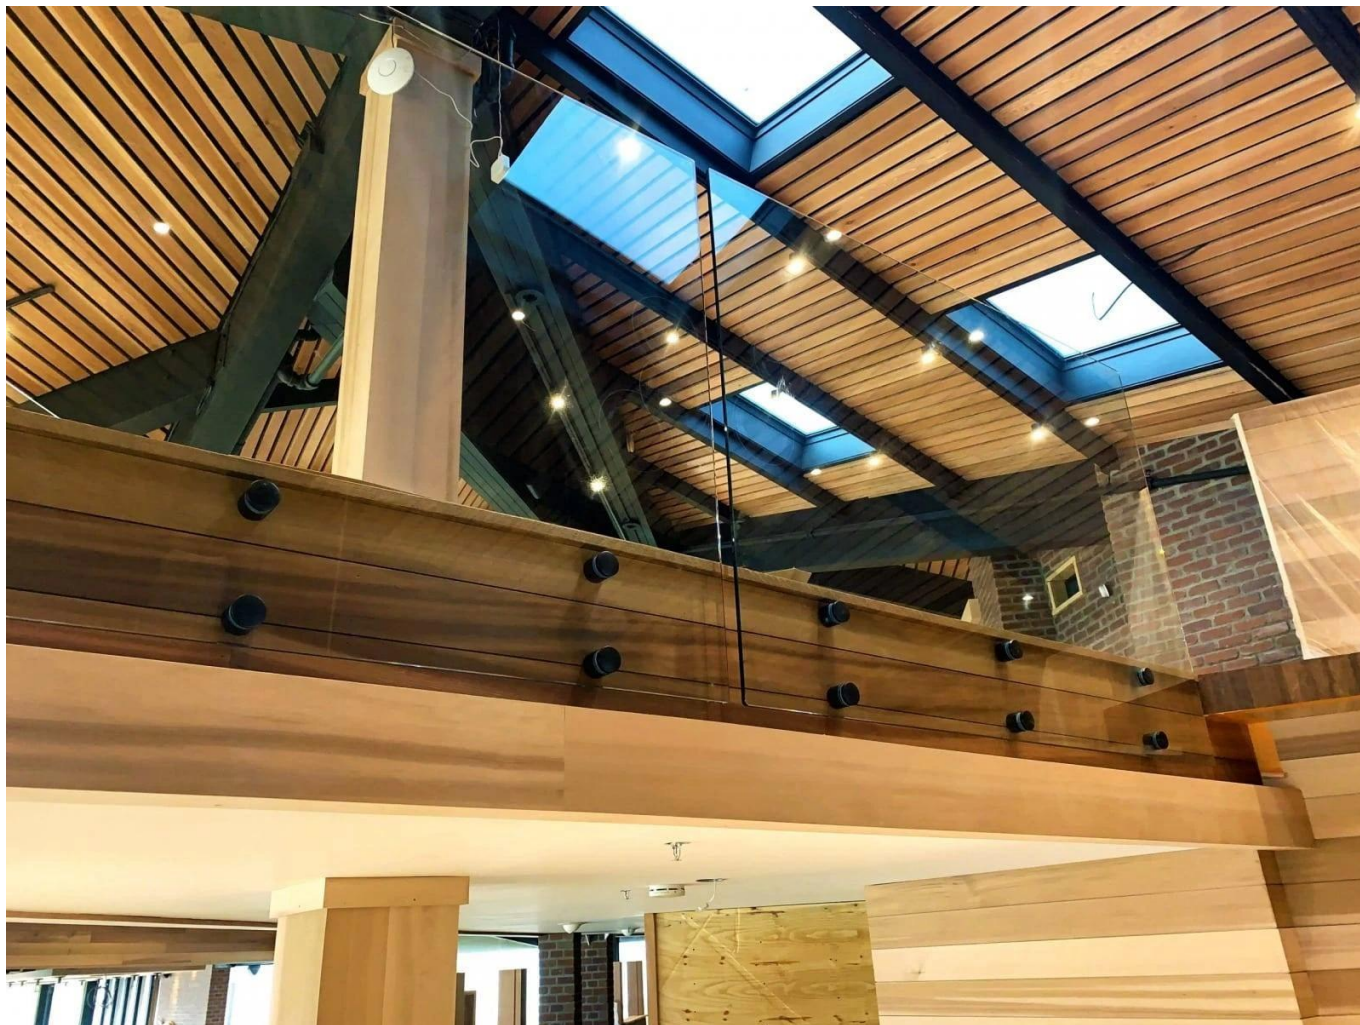

- Safety glass barrier for swimming pool and patio

- Glass Balcony Balustrade

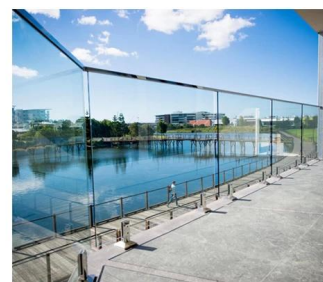

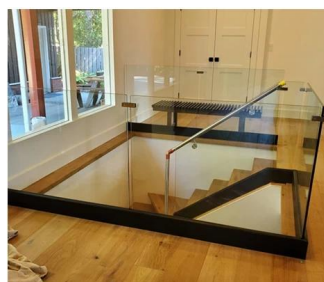

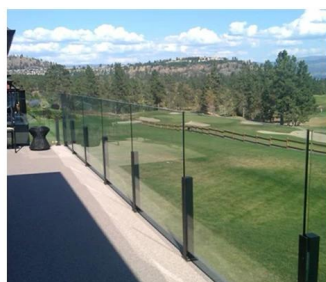

- Glass staircase Rake

- Safety guardrail for landing or mezzanine.

In addition to our **glass railing on profiles'** range, Kebil also offers you a range of glass railings adapted to your needs: point fixing, clamp fixing, lateral profile fixing, framed on each side, with posts, etc...
