

Glass clamp is used to hold tempered glass panels , usually glass clamps are fixed on wall or posts . It is a good choice if you are gonna renew / build a glass fence with our glass clamps because it is of very good quality and easy to DIY .

Specifications of our glass clamps :

- stainless steel
- brushed or polished optional
- for 6mm-13.52mm thick tempered glass
- MOQ : 10 pieces

We have different models of glass clamps for different thickness of glass :

Model G102 /G102R : 8-10mm tempered glass , with security pin in the middle , you can easily take the security pin off if you dont want to drill holes on glass .

G102 glass clamp is with flat back ; G102R glass clamp is with arc back .

Model G 103/103R ; G104/104R; G105/105R

These models of glass clamps are of the same look , but with different sizes for different thickness of glass .

G103/103R : for 6-8mm glass

G104/104R : for 8-10mm glass

G105/105R : for 10-13.52mm glass

Model G106/106R

This type of glass clamp is used at corner to support glass .
