

Stainless steel glass handrail system includes tailor-made tempered glass panel, stainless steel balustrade post with glass clamps. This system is widely used for the design of balcony, stair and swimming pool fence.

The glass thickness can be ranged from 5/16"-1/2", custom-made, with safety corner. All post is SS304 or 316 material to suit indoor and outdoor use, in round and square shape.

Usually there are 3 types of posts in a project, including:

| | |
|-------------|---------------|
| round post | dia43/50.8mm |
| square post | 40*40/50*50mm |

1 way end post

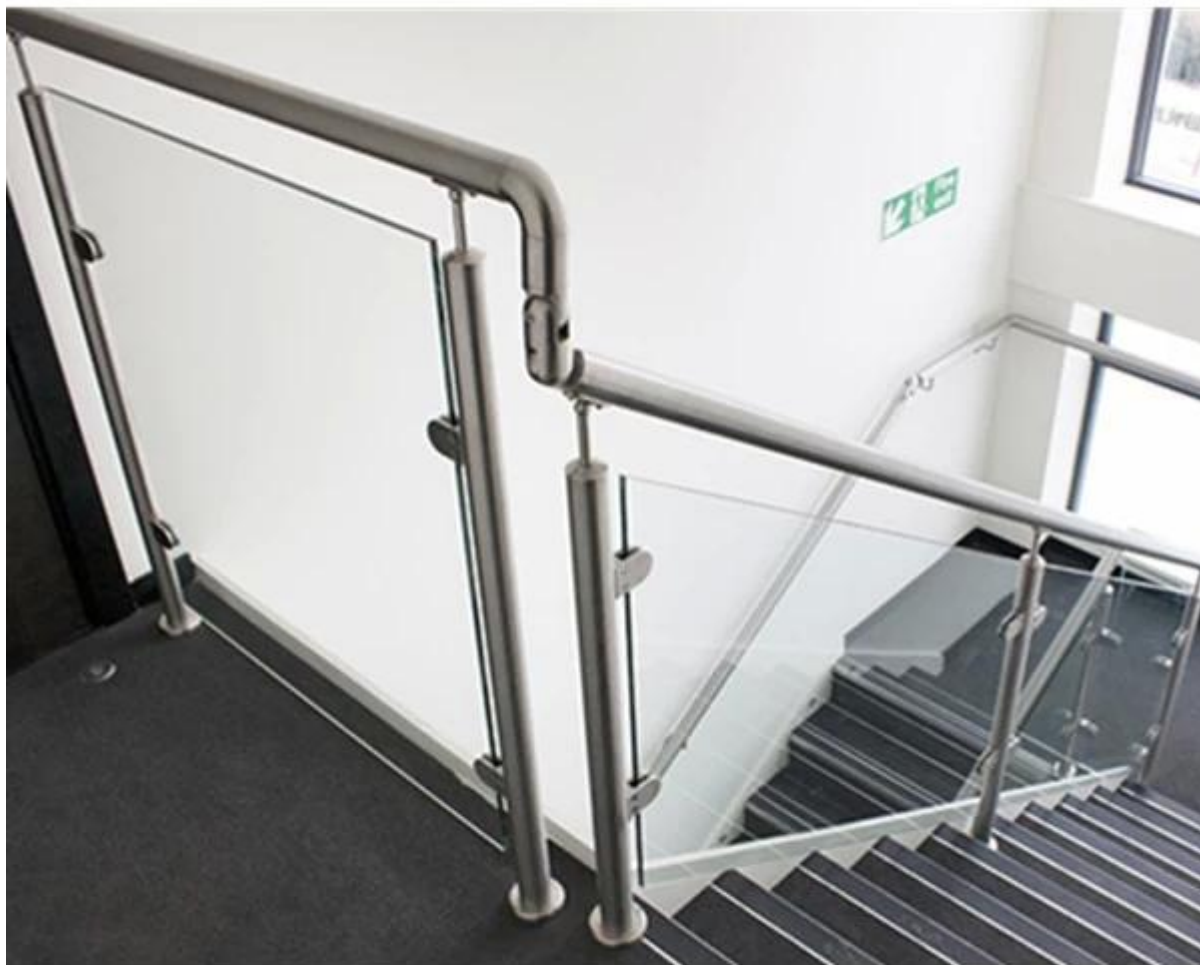

2 way intermediate post with glass clamps 180 degree

2 way corner post with glass clamps 90 degree

The post can be deck mounting and facial mounting.

Product show:

1 way end post with 2 glass clamps base plate type
