

Villa House Rooftop Stainless Steel Glass Balustrade Column, Stainless Steel Glass Panels Railing

Description:

The glass railing for villa is a stylish modern addition to any outdoor space. It features a heavy-duty design with a glass of 12-15mm, providing both safety and elegance. The railing is supported by black oval-shaped posts and features a matching handrail for added support. Its big size makes it suitable for outdoor decks, terraces, and balconies, adding a touch of sophistication to any environment.
