

## **Wholesale Outdoor Safety Clear 12mm Tempered Glass Baluster Glass Fence Toughened Outdoor Glass Spigot Railing Pool Fence**

**The glass spigot railing is designed to securely hold glass panels in place, providing unobstructed views while maintaining safety. The glass used in this railing system is typically 10-13.52mm thick, ensuring durability and clarity. The size of the glass panels can be customized according to the client's needs, with common dimensions being 1000mm x 1500mm.**

**One of the key features of this railing system is the use of duplex 2205 stainless steel, which offers superior strength and resistance to chloride attack, making it an ideal choice for pool environments. The railing is available in various heights and widths to accommodate the specific requirements of the project.**
