

Aluminum handrail post is widely used in semiframless glass fencing system. It is designed to hold 1/2" glass and base plate type is the most popular.

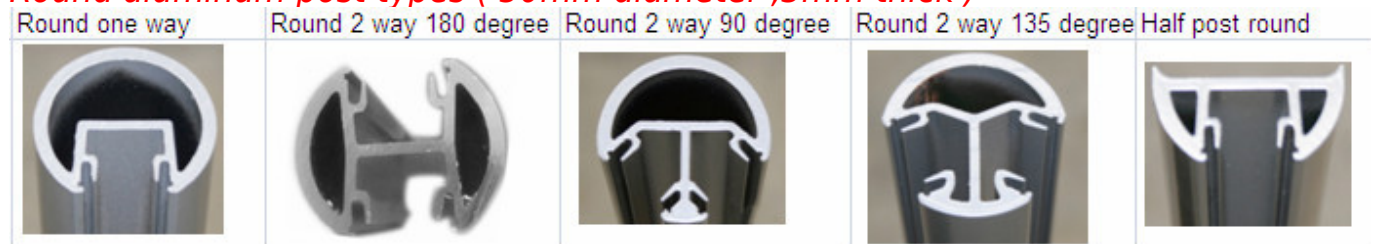

Usually there are 3 types as below:

1. one way aluminum end post
2. two way 180 degree middle post
3. two way 90 degree/135 degree corner post

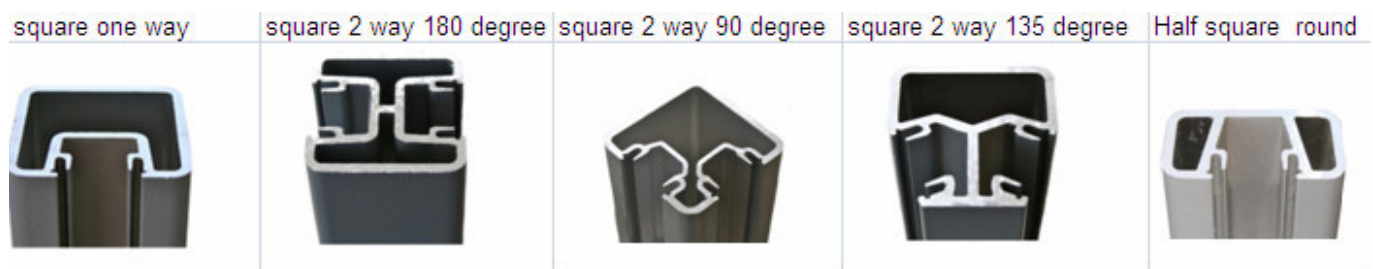

The aluminum post can be round shape dia50mm\*3mm and square shape 50\*50\*3mm, with powder coating, black and silver color for the finish.

**Details:**

*Round aluminum post types ( 50mm diameter ,3mm thick )*

*Square aluminum post types (50\*50\*3mm )*
