

Frameless glass balustrade system is the most popular choice for preserving your view. Slotted rail on top can fix the glass panel more firmly and stably.

We have 2 types of slotted rail: one is round shape and the other is square shape. The fittings include cap, 90 degree connector, 180 degree connector and rail to wall connector, plastic insert.

All fittings are designed to suit 10-12mm tempered glass panel. The material is SS304 and SS316 grade.
