SF-50

Wood screw, lag bolt

**SF-50**

Satin brushed or mirror polished;

**Mirror**

**Satin**

SF-50

If your glass is wider and thicker, we can do with our SF-50T glass standoff.

Project:  
Indoor staircase;

## Comparison

Normally Glass standoff is used for frameless glass railing design, anyway, if you need to add a top handrail, our mini top slot should be a good choice if your glass is 12mm;
