

frameless toughened glass steps for staircase:

Shenzhen Launch are the expert in handrails and balustrades and glass pool fencing and necessary fittings and accessories. Such as toughened glass, stainless steel railing hardwares and glass balustrade hardwares.

Glass could be clear glass or colored glass or toughened glass or tempered glass or laminated glass for your option. Glass as the steps for staircase, the thickness could be

15mm/19mm/24mm ;

Laminated glass thickness could be 31.5mm/39.5mm/51mm .

We could also supply you the whole set of glass steps including necessary fittings and hardwares for the staircase.

Stainless steel part is to support the steps and link the first floor to second floor. So you don't need worry anything, we would design and make the whole staircase and railing balustrade for you, and make your home house perfect.

Glass should be shipped by vessel, can't shipped by air. We would use very strong plywood case and bubble and cartons to do the packaging.
