

Spring loaded hinge is commonly applied on swimming pool fencing glass gates . It is not so functional as hydraulic hinges but it still works well and with very good prices .

We have two series of spring loaded hinges , one series is made by stamping . It is lighter and mainly used for 8-10mm thickness glass gate ; the other series is made by casting . It is much heavier and works better than stamping hinges .

Below are stamping hinge series :

Glass to glass hinge G-G 1

[glass gate hinge for 10mm 12mm pool fence glass gate](#)

G-G 1

Glass to wall hinge G-W 1

[adjustable glass to wall door hinge, glass to square post hinge, spring loaded gate hinge](#)

G-W 1

Glass to round post hinge G-R1 [Gate hinge](#)

G-R 1

The other casting sries of hinge :
