

side mounted handrail post bracket,side fixed railing post bracket

side mounted handrail post bracket has two adjustable holes,post can pass through the two holes to fixed on the side of the wall.So it is called side fixed railing post bracket.

The suitable post size can be round diameter 42.4mm or 50.8mm .

If you use side mounted bracket , so you don't need any base or cover for the post at the bottom.

Side mount bracket can save some room for your deck or house.

Many American customers love this design based on our experience.
