

We have different types of square tubes connectors : 2 way , 3 way axis, 3 way T shape , 4 way tube connectors .

The square tube connectors are used to connect steel structures , mainly for 40*40*1.5mm square tubes . Or tailor made to your required tube sizes ,

We make them with stainless steel 304 or 316 material .

Please take a look of below different models of tube connectors :
