

Model P702R wall bracket is popular and designed to connect handrail with wall .

It comes with round base and cover plate,so the screws will be not seen after installation,which looks nicer and elegant.

"L" shape rod is used for supporting handrail .

3 holes or more are for screws fixed into the wall and top handrail.

Types:

1.Horizontal saddle **hand railing bracket**

2.Adjustable saddle hand railing bracket

3.Glass mounted hand railing bracket
