Montagem	DIY fácil
MOQ	1 metro

Kit de proteção externa para projeto arquitetônico de aço preto-

Instruções de montagem do guarda-corpo

Guard Rail Assembly Instructions

Tools Required: Electrical Power Drill
(Impact Drill Preferred)

Overview: Assemble the rail and position it before marking holes for drilling. Improper installation can lead to failure of rail system or injury.

² Double check posts are parallel and tight against inside rail before marking holes for drilling.

¹ Inside rail will be loose until each post is secured to the ground.

³ Push and pull top rail & inside rail to ensure all is secure.
